

St Luke's Church of England School Newsletter

18th June 2021

Message from Ms Iwanicki

Dear Parents and Carers,

We have had an incredible week here at St Luke's. After a very rainy start to the week, we quickly rearranged all the activities and set up gazebos in the playground and managed to hold an 'indoor sports day'. The children had an amazing time and with only 1 point's lead, this year's overall winning house team was 'Love' with a total of 174 points. Congratulations to everyone who took part! Photos of our wonderful athletes can be seen on the school YouTube channel.

This week we have also been celebrating Art & Design week. The children have been studying the patterns on feathers, experimenting with colour mixing and building and testing bridges they have designed.

We have recently received some complaints from our neighbours regarding cars parked illegally on lowered curbs and on double yellow lines opposite the school. Would all parents who drop off or pick up their children in cars please park further away from the school where there is less traffic and walk to the entrance.

Finally, I would like to remind everyone that the week beginning 5th July will be **Science Week** and on Tuesday 6th July the children can come to school dressed as a scientist. More information about different scientists can be found at <https://www.bbc.co.uk/teach/class-clips-video/science-ks2-scientists-and-scientific-method/z43mbdm>

Jo Iwanicki
Head of School

1 Corinthians 13:4-5 Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It does not dishonour others, it is not self-seeking, it is not easily angered, it keeps no record of wrong

Spring Class

This week in spring class the children had a fabulous sports day. We were also learning about car mechanics and how they can help adults. The children enjoyed designing and writing about their dream car. We are also very happy to announce that our caterpillars have emerged from their pupas and are now beautiful butterflies. We are excited to release them next week.

Summer Class

This week in Summer Class we have been writing letters to Greenpeace about endangered animals. In Mathematics we have been practising how many ways we can make 10 and using strategies to solve subtraction calculations. It has been Art week and we had to design a bridge, make it and then test how sturdy it was. We also have been exploring what happens when we mix colours and have painted our own feather design for a whole school display.

Autumn Class

This week in Autumn Class, not only did we enjoy Sports Day but we also celebrated 'Art Week.' We created patterned feathers for a whole school display and designed, built and tested our own bridges. In English, we have been describing characters and considering names that represent their personalities. In Maths, we have been learning how to convert between analogue and digital time.

Winter Class

This week we have been busy rehearsing our play. We are very excited to show everyone our production! This week has also been art week! We have enjoyed designing and painting our own feather for a final whole school piece of artwork. We have also been designing and making our own bridges out of paper, straws and tape!

Golden Book

Spring Class

Indy for using her initiative to take some beautiful photos of our class caterpillars on an iPad.

Future for showing great determination during sports day.

Summer Class

Emiliana for her clever problem-solving skills when constructing a bridge.

Bobby for his wonderful letter to Greenpeace asking about an endangered animal.

Autumn Class

Tamia for her fantastic work converting between analogue and digital times.

Laith for his wonderful design of a patterned feather.

Winter Class

Mohamad for his enthusiasm and fantastic singing while rehearsing our production.

Lubna for designing and painting a beautiful feather.

Dates for Diary 2021

Term dates are on the school website. Additions are in **blue**; Changes are in **red**.

1st July

Whole class photos

5th – 9th July

Science Week

6th July

Dress as a Scientist

8th & 9th July

Year 6 Production 6:00pm

21st July

Last day of summer term. 1.30pm finish.

✦ Happy Birthday! ✦

Eva Summer Class

A big thank you to all who bought t-shirts or caps for Sports Day. Not only did the children look brilliant but you also helped raise over £280 for the PFA, which in turn helps us help the school.

Thank you for all your support!
